Discover doors at Virtuoso that cater to every style, taste and personality. At Virtuoso, our doors are not just aesthetically pleasing; they are robustly constructed to endure the diverse challenges of the UK's fluctuating climate. From the hottest summers to the coldest, wettest winters, our doors stand strong.

Crafted with sturdy, police-approved components and a resilient inner core, they not only exude durability but also provide enhanced security, keeping unwelcome intruders at bay and offering you the peace of mind you rightfully deserve.

Moreover, our doors adhere to the highest energy standards. In a time of escalating energy costs, they act as a barrier, retaining the warmth within your home and leaving more money in your pocket. Choose Virtuoso doors for a harmonious blend of style, durability, security and energy efficiency.

SATISFACTION GUARANTEED

Elevate Efficiency, Conserve Energy:

Step into a world of energy efficiency with doors built to the highest standards. All of our doors have excellent thermal efficiency and achieve a U-value rating of 1.4 or better.

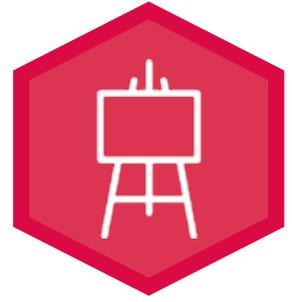

Built to Last, Designed to Weather:

Our doors are crafted with precision using high-quality materials and advanced construction techniques, ensuring robustness that stands up to the challenges of diverse weather conditions.

Security Beyond Standards:

Experience heightened security with our doors, featuring police-approved components and a fortified inner core. Our locking systems are tested to Secure by Design and PAS 24 security standards.

A World of Style and Customisation:

Discover a range of styles and designs tailored to suit every taste. Our doors are a canvas for self-expression, offering customisation options that include different finishes, materials, and decorative elements.

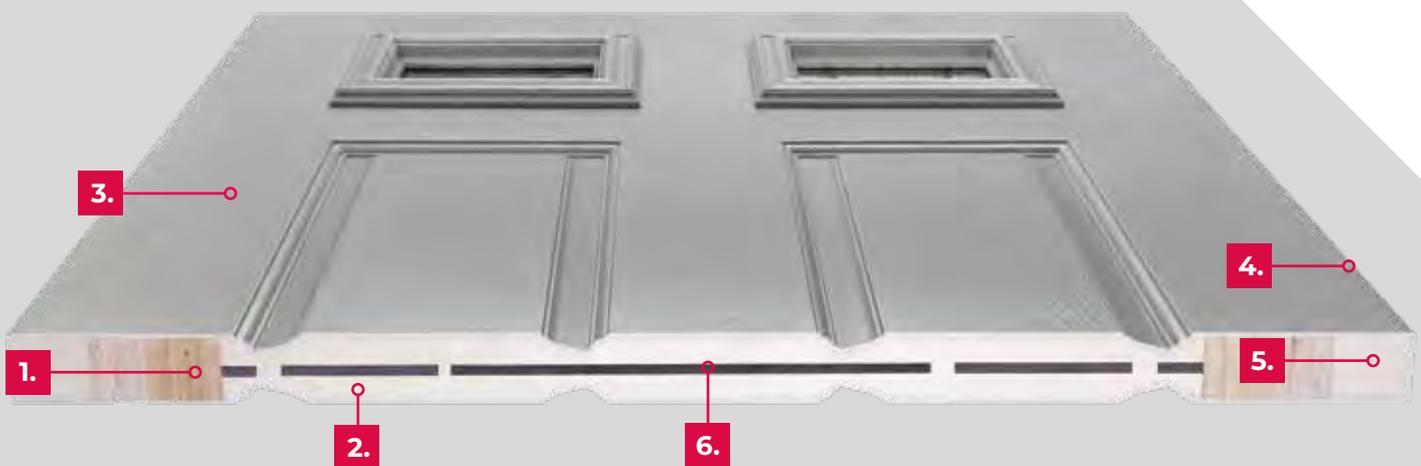

Your Peace of Mind Matters:

Rest easy knowing that our commitment to your satisfaction goes beyond design and functionality. With our 10-year comprehensive warranty, we offer assurance that you are installing a door with lasting quality.

COLOUR

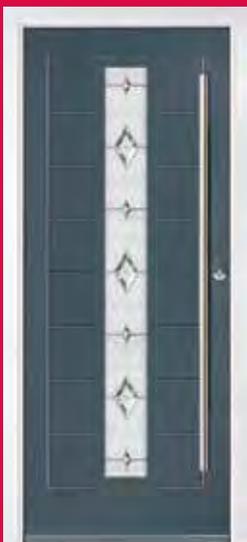

YOUR WORLD

Elevate your entrance with doors that project your distinctive personality.

Your front door isn't merely an entry point; it serves as a focal point of your home's facade, expressing your identity to the world. For those seeking to distinguish themselves, our extensive array of RAL colours offers the broadest selection, allowing you to mirror not only the essence of your home but also your unique personal style. Choose a door that speaks volumes about you and stands out from the ordinary.

• Colours are as accurate as the printing process allows.

GRAINS

STANDARD

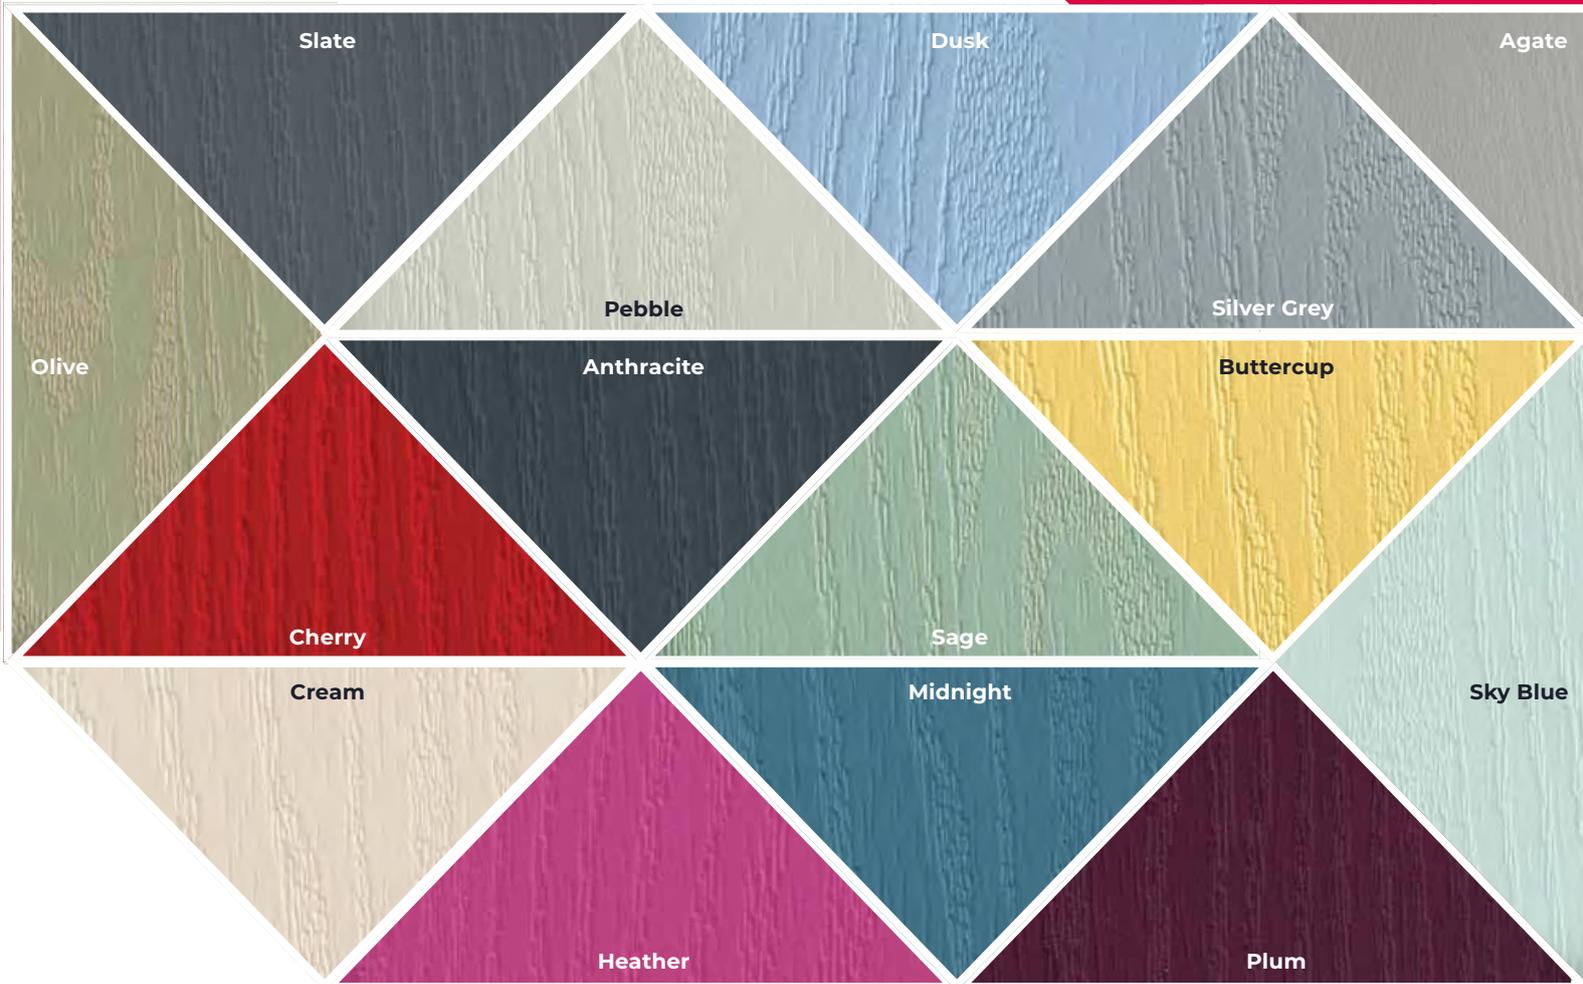

COLOURS

White

SUPERIOR COLOURS

Every Virtuoso door comes with a rich, glossy colour finish that is resistant to fading, ensuring a stunning appearance that will endure for years.

RAL COLOURS

The ultimate colour system for the ultimate design statement.

A palette of 2,540 RAL colours offers exceptional versatility, allowing us to seamlessly match nearly any colour. This extensive range facilitates the creation of a harmonious aesthetic for your entire property. Whether it's garage doors, utility doors, drainage pipes, or guttering, we can customise our doors to complement and enhance the overall flexibility and style of your space.

GLASS OPTIONS

A Virtuoso door is all about personalising your home experience, and nothing adds more individuality than your choice of glass.

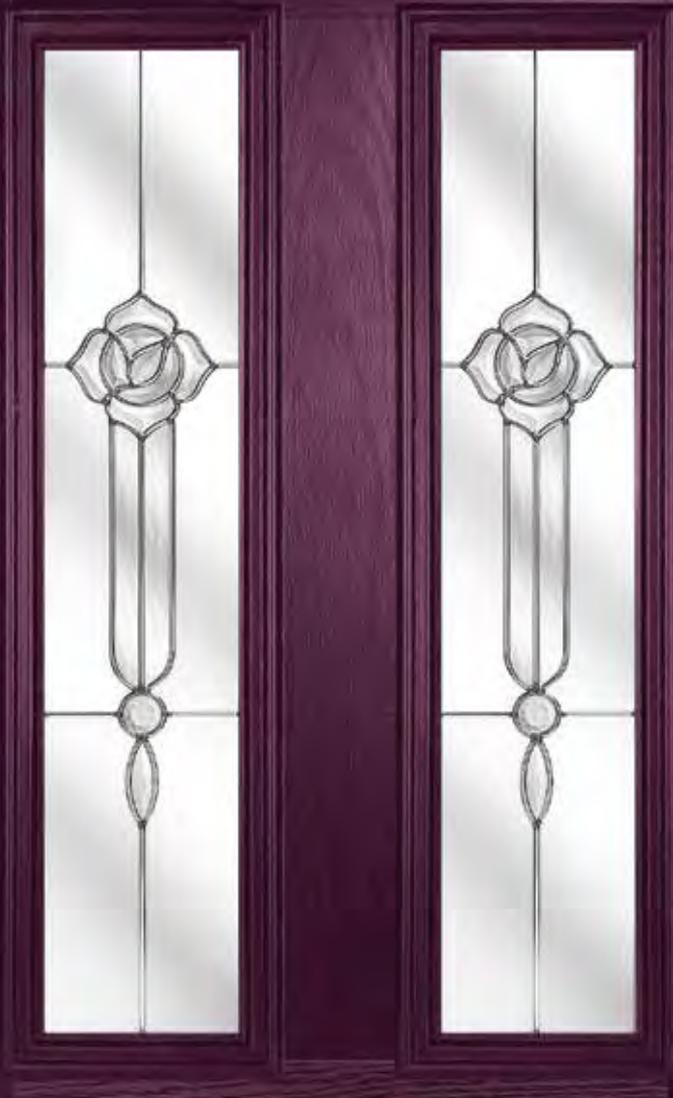

Let's talk about our glass options, they're a game-changer for your door design. Our glazed doors offer a variety of choices, including double or triple glazed glass. Each piece is carefully crafted in our workshop, and you have the freedom to choose features like lead, bevels, sandblasted glass, coloured glass and resin bevels.

This not only lets you create a unique look for your door but also allows for matching top and side lights, ensuring a seamless and personalised touch to your entire entryway.

We offer hundreds of glass combinations, with certain options exclusive to specific styles. Explore our comprehensive glass matrix on page 86 for the complete selection.

Titanium

SAFE & SECURE

As would-be thieves find ever more diverse ways of gaining access to a home, it's important to install a door with impeccable security credentials. Which is why our sophisticated solutions are tried, tested, and tested again to ensure unwanted access is as difficult as possible.

The strength of our doors starts at the core. A multi-layered, engineered foam-filled slab that can take the brunt of a sledgehammer then made even stronger incorporating an aluminium 'U' rail.

A super-resilient and high-impact resistant outer Glass Reinforced Plastic skin adds yet more strength, whilst our range of multi-point locking systems are approved by BSI security standards and Secured by Design – the police preferred specification for ultimate peace of mind for you.

FRENCH DOORS

French doors originated during the Renaissance period. They are a classic and elegant design choice for interior and exterior doorways.

French doors are comprised of two hinged doors that swing open from the centre. They can be opened together to create a wide entrance or opened singularly.

Carlton 2 - Clear

French doors can be made in all of our door styles. Traditional styles have a classic look, while modern variations incorporate sleek lines and contemporary cassettes.

Barrington - Fluted

HARDWARE CHOICES

Contemporary

High quality stainless steel and chrome hardware options complete the ultra-modern look.

Sweet

Stylishly simple, exquisitely designed and the curved principle within each component in the 'Sweet' Range provides a lasting aesthetic.

**Traditional**

A traditional antique black finish makes this the perfect range for the traditional cottage-style door.

Superior

Our superior hardware is designed to provide a finish that will last for years to come. Choose from six high quality finishes and numerous designs to help you complete your perfect door.

SIDE PANELS & SIDE LIGHTS

Adding side panels can provide the ultimate statement door. Our range allows your imagination to run wild with glass options and panel designs.

Glazed side panels and sidelights can coordinate with the glass of the composite door, or you have the option to select from our range of backing glass on page 84.

Stippolyte™

Sidelights

The glazed panels allow natural light to enter the entrance area, creating a bright and welcoming ambiance inside the home.

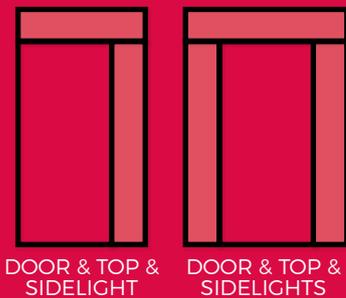

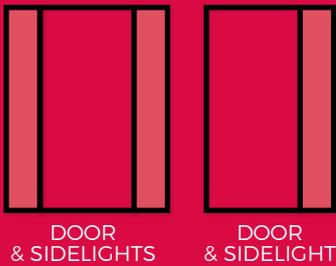

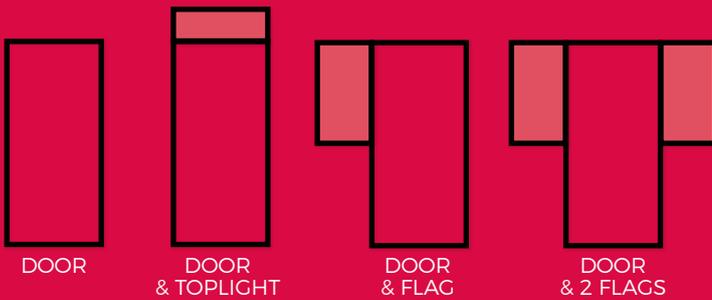

FRAME STYLES

UPVC

ALUMINIUM

Opt for either a uPVC or Aluminium outer frame to enhance the aesthetic of your current windows and doors. Achieve colour coordination by matching the composite door frames internally and externally, or select from a palette of over 2,500 RAL colours.

DOOR CONFIGURATION

Choose from a range of configurations that perfectly suit your architectural preferences and bring a touch of elegance to your home or business.

OBSCURE GLASS

OPTIONS

Obscure glass can offer privacy by obscuring the view through the door while still allowing natural light to enter the space. Backing glass refers to the additional layer of glass positioned behind decorative or functional glass panels.
